Yes - we will likely have this as a suggested option for school divisions in certain phases (if the Governor goes with a phased approach)... VDH is looking at this option to determine its epidemiological value.

Lorraine- can you share this with the HD for their take - how much better would this approach be?

Interesting, but I'm thinking this would be confusing to do at the local FCPS level only - it seems like it could make sense as a state level strategy. Perhaps could be a NOVA strategy - I think going this way alone in FCPS would be tough sell to the community.

A potential major nugget

What do you think of this 50 percent capacity approach?

Summary - 4 days of school for cohort 1 followed by 10 days off then cohort 2 next week for 4 days followed by 10 days off

Is this best alternative schedule to embrace ?
