

October 28, 2021

Dear Parent or Guardian of 

Thank you for completing and returning the school health information form. You are in receipt of this letter because you indicated on the school health form that your child has an attention deficit or other mental health condition of concern. School counselors, school psychologists and school social workers work collaboratively with the Public Health Nurse at school to support students and families with gaining access to resources about behavioral health services. These school professionals are members of the student services team in every Fairfax County Public School and are available to consult with you and your child. If you have already been in consultation with your student services team, we welcome your continued support and collaboration. If you would like to connect with a student services team member, please call your school's main number and you will be directed accordingly.

If there are changes to your health information form or if you indicated a mental health concern for your child in error, please contact a member of your child's student services team.

Sincerely,

Sara Genetin  
Director of Student Services
