Subject: RE: selected student's IEP progress reports

Just gave him an exit ticket on properties and he did great in class today. He will have a quiz on the computer that will count towards the grade but I will print it out for him since we talked about that accommodation.

Subject: selected student's IEP progress reports

Hey, team! I need have data entered into my selected student's IEP progress reports before Wednesday. Ryan and Heather want to be able to review the data on Wednesday. Please take a look at your data/his goals and either give me the data or enter the data into the progress report. I have added you all to his team.

Mary, obviously you cannot do this. We will have to touch base sometime tomorrow or Wednesday to review any sort of information you have on him.

Please let me know if 1) you do not know who the selected student is and I will have to call you with the information (or you can ask Ryan in person) 2) he does not appear on your dashboard in SEASTARS.

Thanks, guys and happy Monday!

Jen
